Index terms— urgent baby boom, patriotic Godsintel robot, devastator robot, aborted blood pollution, contraceptive menstrual blood pollution, declining human race/ , Urgent escape to the mountains in the [s/o fore seen] event of this non-nuclear robotic war, wherein global positioning system does not exist, can be an emergency solution.

Concept is Patriotic ‘Godsintel’ robots able to produce million micro waves equal to e.g. a million or lakh or thousand phone calls, should be planned to reach the devastator robots; million micro waves or telephonic waves of patriotic ‘Godsintel’ robot will interfere with devastator robot’s command and inactivate it, simultaneously another incorporated command, with alternative global positioning system of rerouting former devastators to the right hand sea, rear end devastator robots to the left hand sea, wherein the devastator robots can be drowned and quenched, should be activated.

Ultimate solution for global threats is to eradicate global contraception, with urgent contraception reversal, Aborted blood pollution, contraceptive menstrual blood contamination of the Environment namely oceans, rivers, air, attracts blood feeding animals like Tigers to frequently enter the human habitat at Foot hills, far away from the virgin forest with no aborted blood pollution, to the score of 20 fold over the past 15 years [p <0.0005]; with associated reducing human density, the animals prey upon easily, due to reduced strength of security.

1 I.

Introduction blood feeding animals like Tigers, Cheetahs’ entry to the human habitat at foothills is steadily increasing over the past few decades, as more and more of the roads, buses, shops appear empty with few people, secondary to the rapidly declining fertility rates and associated aborted blood pollution, contraceptive menstrual blood pollution evidenced by rising environmental estrogen, ? fetoprotein, β human chorionic gonadotropins, achieved by global contraception, abortion, implemented successfully without therapeutic indication.

Drastically declining human density of the foothill townships, with reduced sound waves, increasing silence, aborted blood pollution making the river waters, tastier by aborted blood to the blood feeding animals, than that of the virgin forest without abortion, contraception, invites the daring animals; this event, reminded about a similar dangerous, non nuclear robotic war, descending like the dew, cautioned in the word of God in the book of Joel following abortions, contraception.

3 Methods and Strategies

Hence an observational analysis was planned to assess the apparent increase in frequency of the blood feeding animals’ entry, endangering human habitat at foothills, as observed by the corresponding author over the past 15 years; the regions included for the analysis of animal entry are, foothills, forest outskirts, townships, and busy roads 20 years back, but deserted now, of different geographical locations separated by ~1000 Km.

Even as I am writing this, in the wake of past two weeks, a few cheetah’s have entered the heart of, two different metropolitan cities, [not only foothill townships,] with aborted blood polluted, contraceptive menstrual blood contaminated rivers flowing in the midst.

Author of the Universe, technologies, Life, provides a clue to reroute; the concept is telephonic waves, micro waves, sound waves of millions of people [early demise of young parents], babes who would have existed on earth but for global contraception, abortion, could have interfered, nullified remote controlled devastator robots; Figure ?? density of the people has decreased drastically, promoting success to the devastator operation Figure ??.

Mobile phone calls are prohibited inside flight, outside intensive care unit, outside operation theatres to avoid interference with the systems involved in flying, intensive care and surgeries.

The book of Joel mentions of a probable non nuclear robotic war, depicted as remote controlled, devastator robots of probably 1-3 feet height, let down on the streets as dew, probably let down in thousands by air carrier for different, specific areas, guided by Global positioning systems, directed to climb walls, enter houses through windows, spew fire, and burn every thing, so that smoke rises to heights; it also suggests the former robot to be rerouted to right hand sea, the rear end robot to be directed to the left hand sea, by some means to be drowned and quenched as remedy.

To plan a rescue, patriotic ‘Godsintel’ robot to do two components 1] to produce 1001, or lakh, or million phone calls akin waves, to achieve interference and nullify the devastator robot’s operation, 2] simultaneously activate alternate Global positioning system to reroute the former devastator robot to the right hand sea, rear end robot to the left hand sea, where it can be drowned and quenched; because going forward, backward is an ordinary, dominant command; let engineering technologies use this concept to devise patriotic Godsintel robot. Urgent escape by the people to nearby mountains with no existing Global positioning system, is an immediate solution Figure ??.

Baby boom, with urgent contraception reversal, and eradication of global contraception, abortion are the ultimate solutions, strategies to prevent entry of blood feeding animals, and devastator robots.

There was 20 fold increase in entry of prowling Tigers to Foot hill townships over the past 15 years [$p < 0.0005$] Figure ??;

9 Discussion

Distributions of populations have changed radically due to long term decline in fertility rates and improvements in mortality rates; increase in life expectancy was crowning achievement for the past century [era before contraception]. This demographic transition is accompanied by epidemiological transition in which non communicable chronic diseases are becoming the major causes of death; population aging is transforming the world in dramatic and fundamental ways, global aging is affecting the economic growth, migration, health systems, trade, and relative standing of nations. Around the middle of 20 th century, under 5 years 1 age constituted 15% of total population and >65 years of age 5%; its predicted it'll take about 30 years Global contraception, abortion has resulted in smashed fragmentation 2 of germ cells as ring chromosomes, a centric fragments, chromatid breaks, associated reduction of endogenous estrogen, androgen leading to deranged cell metabolism, defaulted genomic repertoire 3 resulting in 275% increased incidence of degenerative, neoplastic, autoimmune diseases 4 and increased mortality, [early demise of young parents] further adding on to global decline of human race.

In 1994 Dr. Susan Jobling of Brunel University 5 of United Kingdom, observed that estrogenic compounds are the pollutant in river waters, when they attempted to find the pollutant responsible for the disappearance of fish. In 1998 Professor Paul Devroey, identified 'estrogen like particles are in the rise in the 6 air' as pollutant, when they attempted to analyze the cause for increase in infertility. Global abortion summary mentioned 863,000,000 reported 7 surgical abortions till 2010; 498 abortions per minute in the globe; United nations mentioned 3,750,000 reported surgical abortions /year; estrogen is a steroid hormone derived from 8 cholesterol[hence it gets the name-cholesterolsteroid], secreted directly into the blood, circulates in the blood, bathes , nurtures each cell; its surveillance is essential for cell differentiation, controlled multiplication, cell 9 Godsintel patriotic robot incorporates two components: one component has to generate million or lakh micro waves, or sound waves, or telephonic waves to interfere, inactivate and nullify the remote controlled devastator operation, the devastator being guided by global positioning system to climb walls, enter houses through windows, spew fire; Godsintel patriotic robot's second component is to simultaneously activate alternate Global positioning system to reroute the former devastator robots to the right hand sea, rear end robots to the left hand sea wherein, they'll be drowned and quenched Figure 6.

Unless blood is shed estrogen cannot reach the environment; during teen age estrogen levels will be 100pg-300pg [trillionth-a very small amount]; >37 years-the estrogen levels decrease to 15 pg; ~80 years, estrogen levels will be 5pg; during pregnancy placenta has to secrete 4200pg of estrogen, otherwise the fetus will be spontaneously aborted around 3rd month, called as placental switch over insufficiency.

If a person >50years' blood is spilt by murder, 150 ml of blood loss $\times$ 15pg=2250pg estrogen contaminant to the environment; Global innocent aborted blood, contraceptive menstrual blood polluted air, water inhalation, ingestion respectively; rising environmental estrogen equates with innocent aborted blood, contraceptive menstrual blood pollution of air, water. Innocent aborted blood, contraceptive menstrual blood with its hemoglobin, binds avidly to oxygen of the environment, and cannot be replaced by plants, unlike emissions; since live humans , with their emissions are made extinct, which is food, manure for plants, disabling replenishment of oxygen, resulting in ozone layer-atmospheric, environmental oxygen depletion, global hypoxia, global warming, disappearance of fish, islands, birds, grapes, solar keratoses, and soaring infectious diseases; hot air Attempt to identify fetal hemoglobin in sea waters by hemoglobin electrophoresis, could not detect visible bands, because the instrument can measure hemoglobin in grams only, whereas estrogen can be detected in pictograms in sea, river waters; if nano science can detect fetal, adult hemoglobin in nanograms in waters, air, this concept of aborted blood pollution can still be confirmed.

This aborted blood pollution, contraceptive menstrual blood contamination of the rivers, attracts the currents resulting in inevitable tsunamis, tornadoes, hurricanes, cyclones, floods, earthquakes.

prowling Tigers; contraception over decades has achieved significant reduction in human density, with reduced strength of security, inviting the daring blood feeding animals. In this analysis the entry of Tigers, Cheetah's into the foothill townships has increased by 20 fold with an alarming increase over the past 1 year, even as the birth control policies got progressively implemented.

Maxwell's equations predicted an infinite number of frequencies of electromagnetic waves, all travelling at the speed of light. This was the first indication of the existence of the entire electromagnetic Electromagnetic waves have three properties namely frequency, wave length, photon energy. Wave length is inversely proportional to the wave frequency; photon energy is directly proportional to the wave length; whenever electromagnetic waves exist in a medium with matter, their wave length is decreased; wavelength of electromagnetic radiation, no matter what medium they are travelling, is quoted in terms of vacuum wave length. Generally electromagnetic radiation is classified by wavelength into radio wave, micro wave, terahertz radiation, infrared, the visible region is perceived as light, ultra violet spectrum, X-rays, gamma rays.

When electromagnetic radiation interacts with atoms and 13 molecules its behavior depends on the amount of energy/ quantum [photon] it carries; many hydrogen atoms emit 14 a radio wave, photon that has a wave length of 21.2 cm. UV rays produce photo electric effect; radio waves produce plasma oscillation. Radio waves are used for transmission of data via modulation, mobile phones, television, wireless networking, amateur radio-all use radio waves; skin effect of radio waves is used in antennas; microwaves are absorbed by molecules that have a dipole moment in liquids, this effect is used to heat food; high frequency waves can interfere with electronic equipments.

12 Conclusions

Global contraception, abortion achieved successfully has resulted in drastically declining fertility spectrum. In 1886 the physicist Heinrich Hertz built an apparatus to generate and detect what is now called radio waves. Hertz was able to find the waves and was able to infer [by measuring their wavelength and multiplying it by their frequency] that they travelled at the speed of light. Hertz 12 also demonstrated that the new radiation could be both reflected and refracted by various dielectric media in the same manner as light. For e.g. Hertz was able to focus the waves using a lens made of tree resin. In a later experiment Hertz similarly produced and measured the properties of micro waves. These new types of waves paved the way for inventions such as the wireless telegraph and the radio.

As the Gospels mention emergency solution to the people is, a caution not to enter houses, but to flee to mountains, where global positioning system does not exist, hence devastators cannot approach.

Hence the concept of 'patriotic Godsintel robot' to be made to reach the former, rear ends of the devastator robots in two split batches, should be geared to emit a million or lakh micro waves, or radio waves or cordless phone waves,[akin to live people's emissions] to interfere and inactivate the devastator operation; simultaneously another remote controlled incorporated command with alternate global positioning system, to reroute the devastator robot -the former group to the right hand sea and the rear end devastator robots to the left hand sea, wherein the devastators can be drowned and quenched.

The ultimate answer would be, to undertake global emergency measures for Baby Boom; to eradicate contraception, abortion from the face of the earth, by which the globe is committing self destruction and to revert contraception including tubal recanalisation wherein, agonizingly permanent sterilization has been achieved. This will restore womanhood, the royalty of blessed motherhood, after Holy matrimony with her beloved husband, from today's belittled womanhood status of use and throw napkin [abort] policy.

global contraception, abortion, the medium of interference to electromagnetic waves have decreased. People with their micro waves, radio waves formation, would have prevented, a remote controlled, devastator operation; for e.g. when someone looks at us without our knowledge, automatically, unaware our eyes turn to glance at them; similarly when we comb our hair in uniform direction and lift the comb to repeat the action the hair rises towards the comb; probably atomic, molecular interference of cells of live human body; as cautioned in the 15 Word of God in the book of Joel, its mentioned that multiple devastator robots of ~2-3 feet height, shaped like horses, will descend like the dew on the streets, probably let down in thousands by air carrier for different, specific areas, streets, with command to climb walls, guided by global positioning system to enter the houses through window's, all along spewing fire of destruction; the Word of God suggests a solution to be obtained to reroute the former devastator to right hand sea, rear end robot to left hand sea to be drenched and quenched; because to go forward, backward is a dominant, simple command; thereafter the land will bloom again, hence this devastator robotic war has to be non nuclear. rates, dangerous reduction in human density, to the score of anticipated drop in <5 years population, to ~5% in another 2-3 decades. Documented rising environmental estrogen, ? fetoprotein, β Human chorionic gonadotropins in river, oceanic waters and air confirms aborted blood pollution, contraceptive menstrual blood contamination, depleting ozone by progressive cumulative depletion of oxygen by the blood pollutant which cannot be replaced by plants, unlike emissions of live humans, which will generate replacement of utilized oxygen by the plants, as God ordained eco balanced cycle.

Sparse people, reduced human density, with aborted blood polluted rivers, though away from the virgin forests, attracts the daring animals like Tigers, Cheetahs, to frequently enter human habitat at foot hill townships, progressing even to the heart of cities with rivers flowing within; this study's analysis reveals >20 fold increase in frequency of visits of Tigers to busy roads of foothill townships over the past 15 years. These daring animals'

cubs had been purposely introduced into the virgin forests a few decades back, to safe guard precious trees like sandal wood, from theft.

The concept of patriotic Godsintel robot figured, as the solution mentioned in the book of Joel, of rerouting the former devastator to the right hand sea and rear devastators to the left hand sea to be drowned and quenched, by some means, was pondered upon. So the patriotic robots split in two batches, to address the former devastators and the rear end devastators, should be made to reach the devastators and have the two incorporated components of [1] to emit a million or lakh micro waves, or cordless phone waves or radio waves, to nullify the devastator operation by interference and [2] simultaneously activate another command, to reroute former devastators to the right hand sea, rear end devastators to the left hand sea, by alternate global positioning system.

Ultimate answer to global threats, including frequent entry of Tigers to human habitat and possible This reminded about a non nuclear robotic war postulated in the book of Joel, of the Word of Author of Life, made possible by absent human beings by global abortion, contraception, whose presence, with their sound waves, radio waves, cordless phone waves, would have interfered and nullified the portrayed operation of devastator robots, walking with stability on four feet, resembling horses, spewing fire of destruction, let down probably by air carrier for different specific areas, climbing walls, entering houses through windows, guided by global positioning systems; the caution follows in the Gospels recommending people not to enter houses, but to flee to mountains, wherein global positioning system does not exist. non nuclear robotic war is, urgent global measures to initiate, achieve uncurbed Baby Boom; eradicate contraception, abortion including policy of small family norms, one child policy, from the face of this earth; to revert contraception, specially by tubal recanalisation, wherein permanent sterilization with its constant, perennial, unabated offense plays the doom of young parents. May the woman hood receive her royalty by blessed, uncurbed, God ordained, enriched childbirth of mother hood, after Holy Matrimony; let the present belittled womanhood of use and throw napkin [abort] status come to a grinding halt. Let virginity be coveted prior to Holy Matrimony.
